Pharmacy Solutions

- What are the changes in pharmacy regulation?
- What are your pharmacy options?
- What are your pharmacy opportunities
- How do you evaluate your present situation?
- How can you capitalize on the changing market?
- How can you utilize current pharmacy products?
- How can you save money through automation?

Changes in Pharmacy Regulation

- 14 day cycle fill requirement for Assisted Living and Skilled Nursing Facilities
 - 7 Day in the near future
- E-MAR and E-Charting
- Physician electronic prescribing
- Accredited Care Organization (ACO)

Pharmacy Options and Opportunities

- In-house pharmacy
- Managed Pharmacy
- Mail Order
- First Dose/Emergency Kits
- Onsite automation
- Remote Dispensing
- Joint Venture

Your Current Situation

- 24/7 pharmacist coverage (Are we held hostage?)
- None or limited automation
- Outdated delivery and packaging systems
- Inventory control (none)
- Dispensing
- Hand written scripts
- Limited access to licensed pharmacists

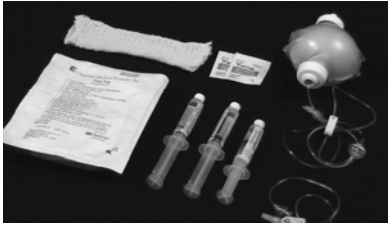

Changing Market

- New technologies
- New regulation
- New equipment and automation

Current Pharmacy Products and Automation

- Vial Fill
- Unit Dose
- Pillow Pack
 - Single and multidose
- Blister Cards
- Onsite Automation
 - Pyxus, MGD, TCG, Parata
- Infusion Services
